

PORSCHE

Nothing looks as good as a brand new Porsche.

Until now. The Porsche Rejuvenation Package, from \$995.

No matter how hard it is driven, over what surfaces or how many love taps the normal wear and tear of life on the road delivers, your Porsche deserves more attention than the standard vehicle.

Sadly, no matter how much care you take, time will inevitably take its toll and after a few years, your Porsche begins to look slightly less magnificent than when it was first on the showroom floor. Unavoidable? Not at all. In fact, with the right attention and expert care, your Porsche can be restored to 'showroom condition', with a minimum of fuss and cost.

Porsche Rejuvenation Packages put your Porsche through the full treatment - both inside and out with Permagard paint protection - a treatment developed by the aviation industry and used by Qantas, Virgin and major international airlines to maintain aircraft appearance and reduce maintenance.

What is the rejuvenation process?

Extensive cleaning of the surface to remove all contaminants before it is assessed by a technician to ensure all micro-scratches, swirls and marks are filled in. Paintwork can now be re-sealed and restored to showroom condition. Yearly application will maintain your Porsche in its original condition.

How does it work?

The coating creates a unique plasticised barrier. Unlike wax or polish it molecularly bonds to paintwork, leaving a glass-like finish, which prevents oxidising and fading, while protecting paint from common contaminants such as bird lime, tree sap, UV rays and acid rain.

Rejuvenation package for slight damage - \$995

Extensive Pre-Clean and surface assessment

Extensive vehicle pre-wash and paint damage assessment by Technician.

Basic Paint Preparation

Removal of scratching and damage caused by bird lime or industrial fall out.

Clear Coat

Cleans the surface and starts to re-build gloss levels in original paint.

Final Coating

The reactive polymer coating is applied producing a high gloss finish molecularly bonded to the paint.

Full interior clean and detail

Extensive vacuum and cleaning of upholstery and all internal surfaces.

Rejuvenation package for heavier damage - \$1,595

Extensive Pre-Clean and surface assessment

Extensive vehicle pre-wash and paint damage assessment by Technician.

Basic Paint Preparation

Removal of scratching and damage caused by bird lime or industrial fall out.

Extensive Paint Preparation

Removal of swirl marks, deeper scratches and other more extensive damage.

Clear Coat

Cleans the surface and starts to re-build gloss levels in original paint.

Final Coating

The reactive polymer coating is applied producing a high gloss finish molecularly bonded to the paint.

Full interior clean and detail

Extensive vacuum and cleaning of upholstery and all internal surfaces.

Annual maintenance package - \$295

Once the initial treatment is completed, it can be topped up yearly during a normal service visit.

Extensive Pre-Clean and surface assessment

Extensive vehicle pre-wash and paint damage assessment by Technician.

Clear Coat

Cleans the surface and starts to re-build gloss levels in original paint.

Final Coating

The reactive polymer coating is applied producing a high gloss finish molecularly bonded to the paint.

Full interior clean and detail

Extensive vacuum and cleaning of upholstery and all internal surfaces.
